

# SHUSTHO DESIGN SYSTEM TOKENS

Shared Across Mobile App (Flutter) & Website (Next.js)

Use these EXACT values in BOTH platforms

## COLORS

### Primary Palette

| Token         | Hex     | RGB                | Usage                                                   |
|---------------|---------|--------------------|---------------------------------------------------------|
| primary       | #E94560 | rgb(233, 69, 96)   | Period indicators, primary buttons, active states, CTAs |
| primary-light | #FF6B8A | rgb(255, 107, 138) | Hover states                                            |
| primary-dark  | #C73E54 | rgb(199, 62, 84)   | Active/pressed states                                   |
| primary-50    | #FDE8EC | rgb(253, 232, 236) | Tinted backgrounds                                      |
| primary-100   | #FBD0D8 | rgb(251, 208, 216) | Light backgrounds                                       |
| primary-500   | #E94560 | rgb(233, 69, 96)   | Main                                                    |
| primary-600   | #C73E54 | rgb(199, 62, 84)   | Dark                                                    |

### Secondary Palette

| Token           | Hex     | RGB                | Usage                                     |
|-----------------|---------|--------------------|-------------------------------------------|
| secondary       | #58A6FF | rgb(88, 166, 255)  | Predictions, ovulation, info cards, links |
| secondary-light | #7AB8FF | rgb(122, 184, 255) | Hover                                     |
| secondary-50    | #EAF4FF | rgb(234, 244, 255) | Tinted backgrounds                        |
| secondary-100   | #D4EAFF | rgb(212, 234, 255) | Light backgrounds                         |

### Semantic Colors

| Token         | Hex     | Usage                                                      |
|---------------|---------|------------------------------------------------------------|
| success       | #238636 | Healthy states, confirmations, guardian active, checkmarks |
| success-light | #2EA043 | Hover                                                      |
| success-50    | #DAFBE1 | Tinted backgrounds                                         |
| warning       | #D29922 | Medium alerts, mood swings, pending states                 |
| warning-light | #E3B341 | Hover                                                      |
| warning-50    | #FFF8C5 | Tinted backgrounds                                         |
| danger        | #DA3633 | Critical alerts, severe pain, red flags, errors            |
| danger-light  | #F85149 | Hover                                                      |
| danger-50     | #FFEBE9 | Tinted backgrounds                                         |

Background Colors (Dark Mode - Default)

| Token            | Hex                   | Usage                                       |
|------------------|-----------------------|---------------------------------------------|
| bg-dark          | #0D1117               | Page background                             |
| bg-dark-elevated | #161B22               | Cards, panels, modals                       |
| bg-dark-muted    | #21262D               | Inputs, secondary surfaces,<br>hover states |
| bg-dark-overlay  | rgba(13, 17, 23, 0.8) | Backdrops, overlays                         |

Background Colors (Light Mode)

| Token             | Hex                      | Usage                      |
|-------------------|--------------------------|----------------------------|
| bg-light          | #FFFFFF                  | Page background            |
| bg-light-elevated | #F6F8FA                  | Cards, panels              |
| bg-light-muted    | #F3F4F6                  | Inputs, secondary surfaces |
| bg-light-overlay  | rgba(255, 255, 255, 0.9) | Backdrops                  |

Text Colors (Dark Mode)

| Token                | Hex     | Usage                         |
|----------------------|---------|-------------------------------|
| text-primary-dark    | #C9D1D9 | Headlines, primary content    |
| text-secondary-dark  | #8B949E | Subheadings, descriptions     |
| text-tertiary-dark   | #6E7681 | Metadata, hints, disabled     |
| text-quaternary-dark | #484F58 | Placeholders, borders-as-text |

Text Colors (Light Mode)

| Token                 | Hex     | Usage                      |
|-----------------------|---------|----------------------------|
| text-primary-light    | #1F2328 | Headlines, primary content |
| text-secondary-light  | #656D76 | Subheadings, descriptions  |
| text-tertiary-light   | #8C959F | Metadata, hints, disabled  |
| text-quaternary-light | #B7BFC7 | Placeholders               |

Border Colors

| Token        | Hex     | Usage                                 |
|--------------|---------|---------------------------------------|
| border-dark  | #30363D | Dividers, card borders, input borders |
| border-light | #D0D7DE | Dividers, card borders, input borders |
| border-focus | #E94560 | Focus rings, active borders           |

# TYPOGRAPHY

## Font Family

- Primary: Inter, -apple-system, BlinkMacSystemFont, “Segoe UI”, Roboto, sans-serif
- Mono: “SF Mono”, “Fira Code”, “JetBrains Mono”, monospace (for code/data only)

## Type Scale

| Name       | Size | Weight | Line Height | Letter Spacing | Usage                    |
|------------|------|--------|-------------|----------------|--------------------------|
| Display    | 40px | 500    | 1.1         | 0              | Hero headlines           |
| H1         | 28px | 500    | 1.2         | 0              | Page titles              |
| H2         | 22px | 500    | 1.3         | 0              | Section titles           |
| H3         | 18px | 500    | 1.4         | 0              | Card titles, subsections |
| H4         | 16px | 500    | 1.4         | 0              | List titles, labels      |
| Body       | 16px | 400    | 1.5         | 0              | Paragraphs, descriptions |
| Body Small | 14px | 400    | 1.5         | 0              | Secondary text, captions |
| Caption    | 12px | 400    | 1.4         | 0.01em         | Metadata, timestamps     |
| Button     | 14px | 500    | 1           | 0.01em         | Button labels            |
| Overline   | 11px | 500    | 1.2         | 0.05em         | Labels, badges           |

## Typography Rules

- NEVER use weights 600, 700, or 900
- NEVER use negative letter spacing
- NEVER use Title Case — always Sentence case
- NEVER use ALL CAPS for UI text
- Use tabular-nums for numbers (dates, times, counts)

## SPACING SCALE

| Token    | Value | Usage                             |
|----------|-------|-----------------------------------|
| space-1  | 4px   | Tight gaps, icon padding          |
| space-2  | 8px   | Compact gaps, inline spacing      |
| space-3  | 12px  | Small gaps, card internal padding |
| space-4  | 16px  | Standard gaps, section padding    |
| space-5  | 20px  | Medium gaps, card padding         |
| space-6  | 24px  | Large gaps, section separation    |
| space-8  | 32px  | Section padding, large gaps       |
| space-10 | 40px  | Hero padding                      |

Table 10 – continued

| Token    | Value | Usage                    |
|----------|-------|--------------------------|
| space-12 | 48px  | Major section separation |
| space-16 | 64px  | Page-level padding       |

## BORDER RADIUS SCALE

| Token       | Value  | Usage                                   |
|-------------|--------|-----------------------------------------|
| radius-sm   | 6px    | Chips, tags, badges                     |
| radius-md   | 8px    | Buttons, inputs, icon buttons           |
| radius-lg   | 10px   | Cards, list items, containers           |
| radius-xl   | 12px   | Elevated panels, modals, dropdowns      |
| radius-2xl  | 16px   | Large modals, bottom sheets, hero cards |
| radius-full | 9999px | Pills, avatars, status indicators       |

### Nested Radius Rule

Inner radius = Outer radius - Padding Example: 12px panel with 8px padding → 4px inner radius

## SHADOWS

FLAT DESIGN — No box shadows. Use borders for elevation and separation.

## ICONS

### Style

- Type: Outlined (NOT filled, NOT duotone)
- Stroke width: 1.8px
- Stroke linecap: round
- Stroke linejoin: round
- Viewbox: 24x24

### Sizes

| Name | Size | Usage                           |
|------|------|---------------------------------|
| xs   | 16px | Inline with text                |
| sm   | 20px | Compact UI elements             |
| md   | 24px | Buttons, navigation, list items |
| lg   | 32px | Feature list items              |

Table 12 – continued

| Name | Size | Usage                               |
|------|------|-------------------------------------|
| xl   | 48px | Feature illustrations, empty states |

## Color

- Default: inherit from parent text color
- Primary: `var(--primary)`
- Secondary: `var(--secondary)`
- Success: `var(--success)`
- Warning: `var(--warning)`
- Danger: `var(--danger)`

## Icon Library

- Web: Lucide React
- Flutter: Material Icons Outlined or Phosphor Flutter

# ANIMATION

## Durations

| Token           | Value | Usage                                            |
|-----------------|-------|--------------------------------------------------|
| duration-fast   | 100ms | Button presses, toggles, micro-interactions      |
| duration-normal | 200ms | Hover states, focus rings, opacity changes       |
| duration-slow   | 300ms | Page transitions, modal open/close, panel slides |
| duration-chart  | 800ms | Chart draw animations                            |

## Easing Functions

| Token         | Value                                      | Usage                |
|---------------|--------------------------------------------|----------------------|
| ease-out      | <code>cubic-bezier(0.16, 1, 0.3, 1)</code> | Entrances, reveals   |
| ease-standard | <code>cubic-bezier(0.4, 0, 0.2, 1)</code>  | Standard transitions |
| ease-in       | <code>cubic-bezier(0.4, 0, 1, 1)</code>    | Exits, dismissals    |

## Common Patterns

- Button press: `scale(0.97)`, `duration-fast`
- Card hover: `translateY(-2px)` + border-color change, `duration-normal`
- Page transition: `opacity 0→1` + `translateY(8px→0)`, `duration-slow`, `ease-out`
- Modal: `scale(0.95→1)` + `opacity`, `duration-normal`, `ease-out`

- Toast: `translateX(100%→0)`, `duration-normal`, `ease-out`
- Skeleton: `opacity pulse 0.5→1, 1.5s infinite`

---

## COMPONENT PATTERNS

### Primary Button

```
Background: var(--primary)
Text: white
Padding: 12px 24px
Border-radius: var(--radius-md)
Font: Button (14px, 500)
Hover: background var(--primary-light), transform scale(1.02)
Active: transform scale(0.97), duration-fast
Disabled: opacity 0.5, cursor not-allowed
```

### Secondary Button (Outline)

```
Background: transparent
Border: 1.5px solid var(--primary)
Text: var(--primary)
Padding: 12px 24px
Border-radius: var(--radius-md)
Hover: background rgba(233, 69, 96, 0.08)
Active: background rgba(233, 69, 96, 0.12)
```

### Card

```
Background: var(--bg-dark-elevated) or var(--bg-light-elevated)
Border: 1px solid var(--border-dark) or var(--border-light)
Border-radius: var(--radius-lg)
Padding: 16px or 24px
Hover (interactive): border-color var(--primary), translateY(-2px)
Transition: border-color duration-normal, transform duration-normal
```

### Input Field

```
Background: var(--bg-dark-muted) or var(--bg-light-muted)
Border: 1px solid var(--border-dark) or var(--border-light)
Border-radius: var(--radius-md)
Padding: 12px 16px
Font: Body (16px, 400)
Color: var(--text-primary)
Placeholder: var(--text-tertiary)
Focus: border-color var(--primary), box-shadow 0 0 3px rgba(233, 69, 96, 0.15)
Error: border-color var(--danger), box-shadow 0 0 3px rgba(218, 54, 51, 0.15)
```

### Alert Banner — Critical

```
Background: rgba(218, 54, 51, 0.1) or var(--danger-50)
```

```
Border-left: 3px solid var(--danger)
Text: var(--danger)
Padding: 12px 16px
Border-radius: var(--radius-md)
Icon: AlertTriangle (24px, var(--danger))
```

**Alert Banner — Warning**

```
Background: rgba(210, 153, 34, 0.1) or var(--warning-50)
Border-left: 3px solid var(--warning)
Text: var(--warning)
```

**Alert Banner — Info**

```
Background: rgba(88, 166, 255, 0.1) or var(--secondary-50)
Border-left: 3px solid var(--secondary)
Text: var(--secondary)
```

**Period Day Indicator**

```
Background: var(--primary)
Text: white
Shape: Circle (mobile 32px, web 36px)
Font: 14px, 500, tabular-nums
```

**Predicted Day Indicator**

```
Background: transparent
Border: 2px dashed var(--secondary)
Text: var(--secondary)
Shape: Circle
```

**Pain Scale — Low (1-3)**

```
Color: var(--success)
Background: rgba(35, 134, 54, 0.15)
Label: "Mild"
```

**Pain Scale — Medium (4-6)**

```
Color: var(--warning)
Background: rgba(210, 153, 34, 0.15)
Label: "Moderate"
```

**Pain Scale — High (7-10)**

```
Color: var(--danger)
Background: rgba(218, 54, 51, 0.15)
Label: "Severe"
```

## Toggle Switch

Track: 44px x 24px, radius-full  
Thumb: 20px circle  
Off: bg-muted, thumb-white  
On: bg-primary, thumb-white  
Transition: background duration-normal

## Chip / Tag

Background: var(--bg-dark-muted) or tinted accent (10-25% opacity)  
Text: var(--text-secondary) or accent color  
Padding: 4px 12px  
Border-radius: var(--radius-sm)  
Font: Caption (12px, 500)

---

## DARK / LIGHT MODE

### Mode Toggle

- Default: Dark mode (matches health tracker aesthetic)
- Toggle: Sun/Moon icon in header/settings
- Storage: Save preference to localStorage
- System: Respect prefers-color-scheme as fallback

### Implementation

- CSS custom properties switch based on [data-theme] attribute
- OR class-based: .dark / .light on html element
- Smooth transition: color, background-color duration-normal

---

## PRESENTATION SLIDE SPECIFICATIONS

### Color Rules

1. Use ONLY colors from this design system
2. NO additional colors beyond the defined palette
3. NO gradients except for hero abstract shapes (pink→blue only)

### Typography Rules

1. Use Inter font exclusively
2. Weights: 400 and 500 only
3. Sentence case for all text
4. No text smaller than 12px

### Layout Rules

1. Use spacing scale values only

2. Use border radius scale values only
3. Cards: 10px radius, 1px border
4. Buttons: 8px radius
5. Maintain consistent padding (24px inside cards)

### **Screenshot Requirements**

1. App screenshots: Use dark mode for technical slides
2. Web screenshots: Show both dark and light mode
3. Side-by-side: App + Web on same slide to prove consistency
4. Responsive: Show mobile/tablet/desktop breakpoints
5. Mockups: Use the exact wireframes provided

### **Icon Rules**

1. Outlined style only
2. 48px for feature illustrations
3. 24px for UI elements
4. Colors from design system only
